

# PRESCRIPTION DRUGS

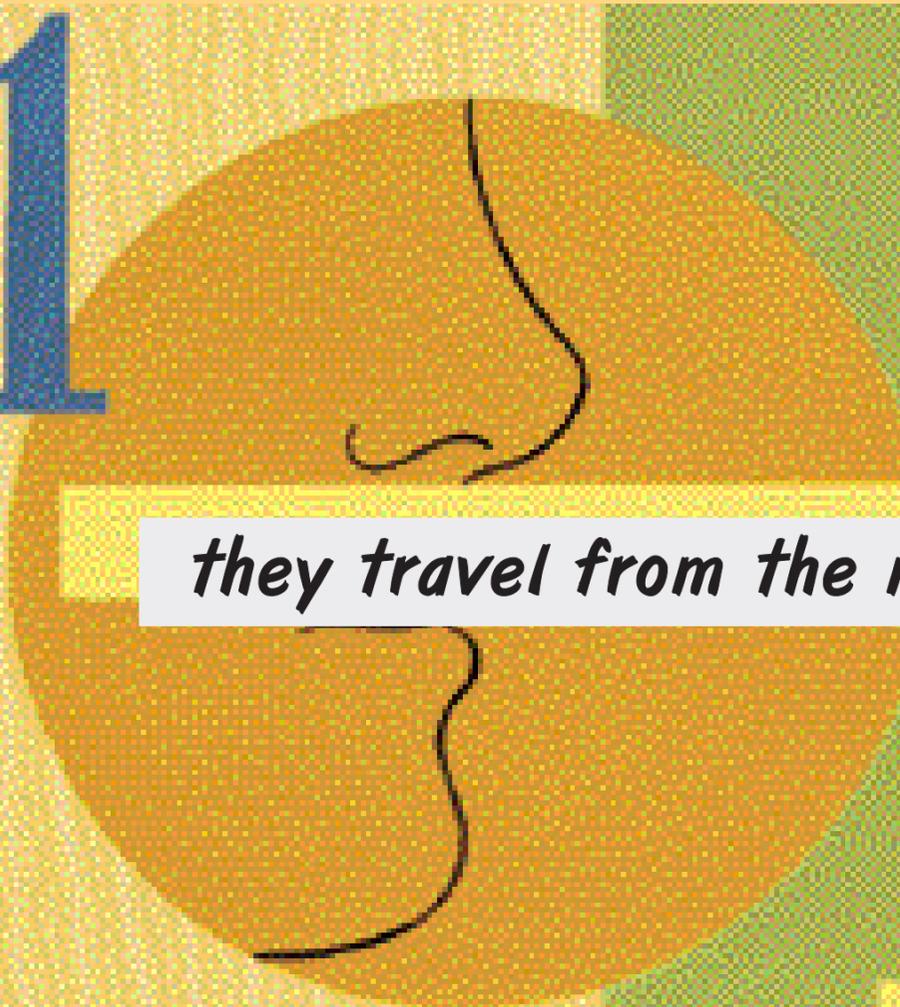

## Go Straight to Your Head

**PAINKILLERS** → Opioids like Fentanyl and Oxycodone

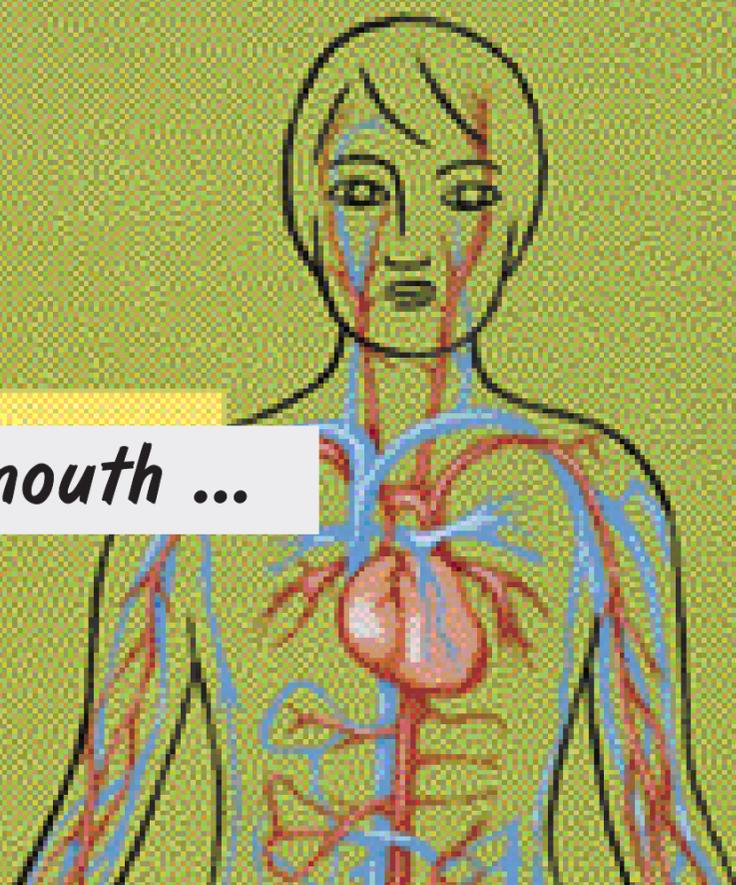

**SEDATIVES** → Benzodiazepines like Valium and Xanax

**STIMULANTS** → Amphetamines like Adderall

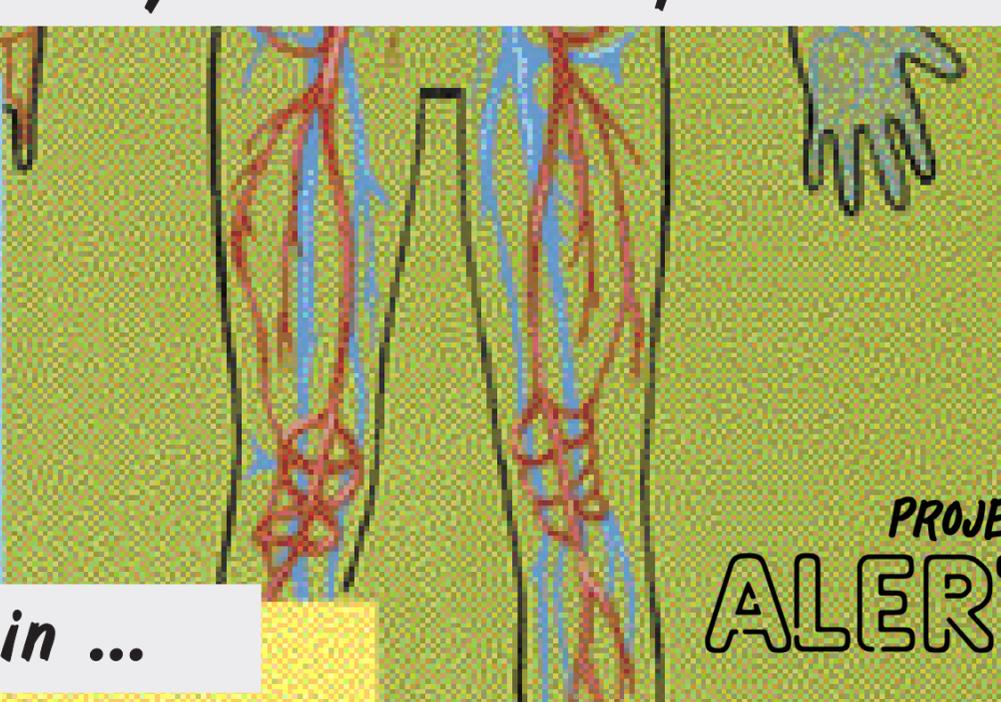

**1** *they travel from the mouth ...*

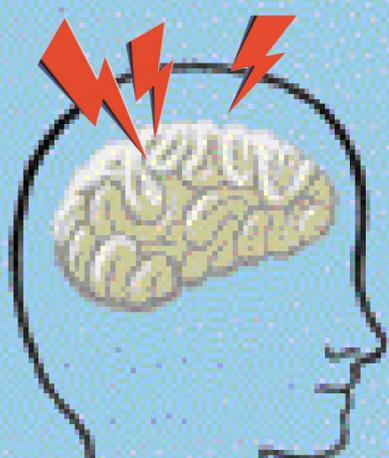

**2** *through the bloodstream ...*

*they stick to the spinal cord ...*

**3** *and bind to your brain ...*

PROJECT  
**ALERT**

- **Follow your doctor's instructions**
- **Don't mix medication with alcohol or other drugs**
- **Don't share prescription drugs**
